Mithos

design by PAOLO GALEOTTI

eleganza scultorea

Curve intense e abbinamenti raffinati, la collezione Mithos disegnata da Paolo Galeotti, si distingue per la sua eleganza e bellezza scultorea. Un'interpretazione moderna delle forme classiche, dove i dettagli e i materiali sono studiati per trasmettere un'eleganza senza tempo.

La lavorazione del cuoio eseguita esclusivamente a mano da abili artigiani, e l'utilizzo di materiali pregiati, sono espressione di una cura del dettaglio impareggiabile, che deriva dalla grande tradizione manifatturiera italiana.

Cuoio e legno convivono armoniosamente, impreziositi dalla cucitura a punto sella e dai dettagli laccati. Le essenze in finitura brillante si accendono grazie alle intense nuance.

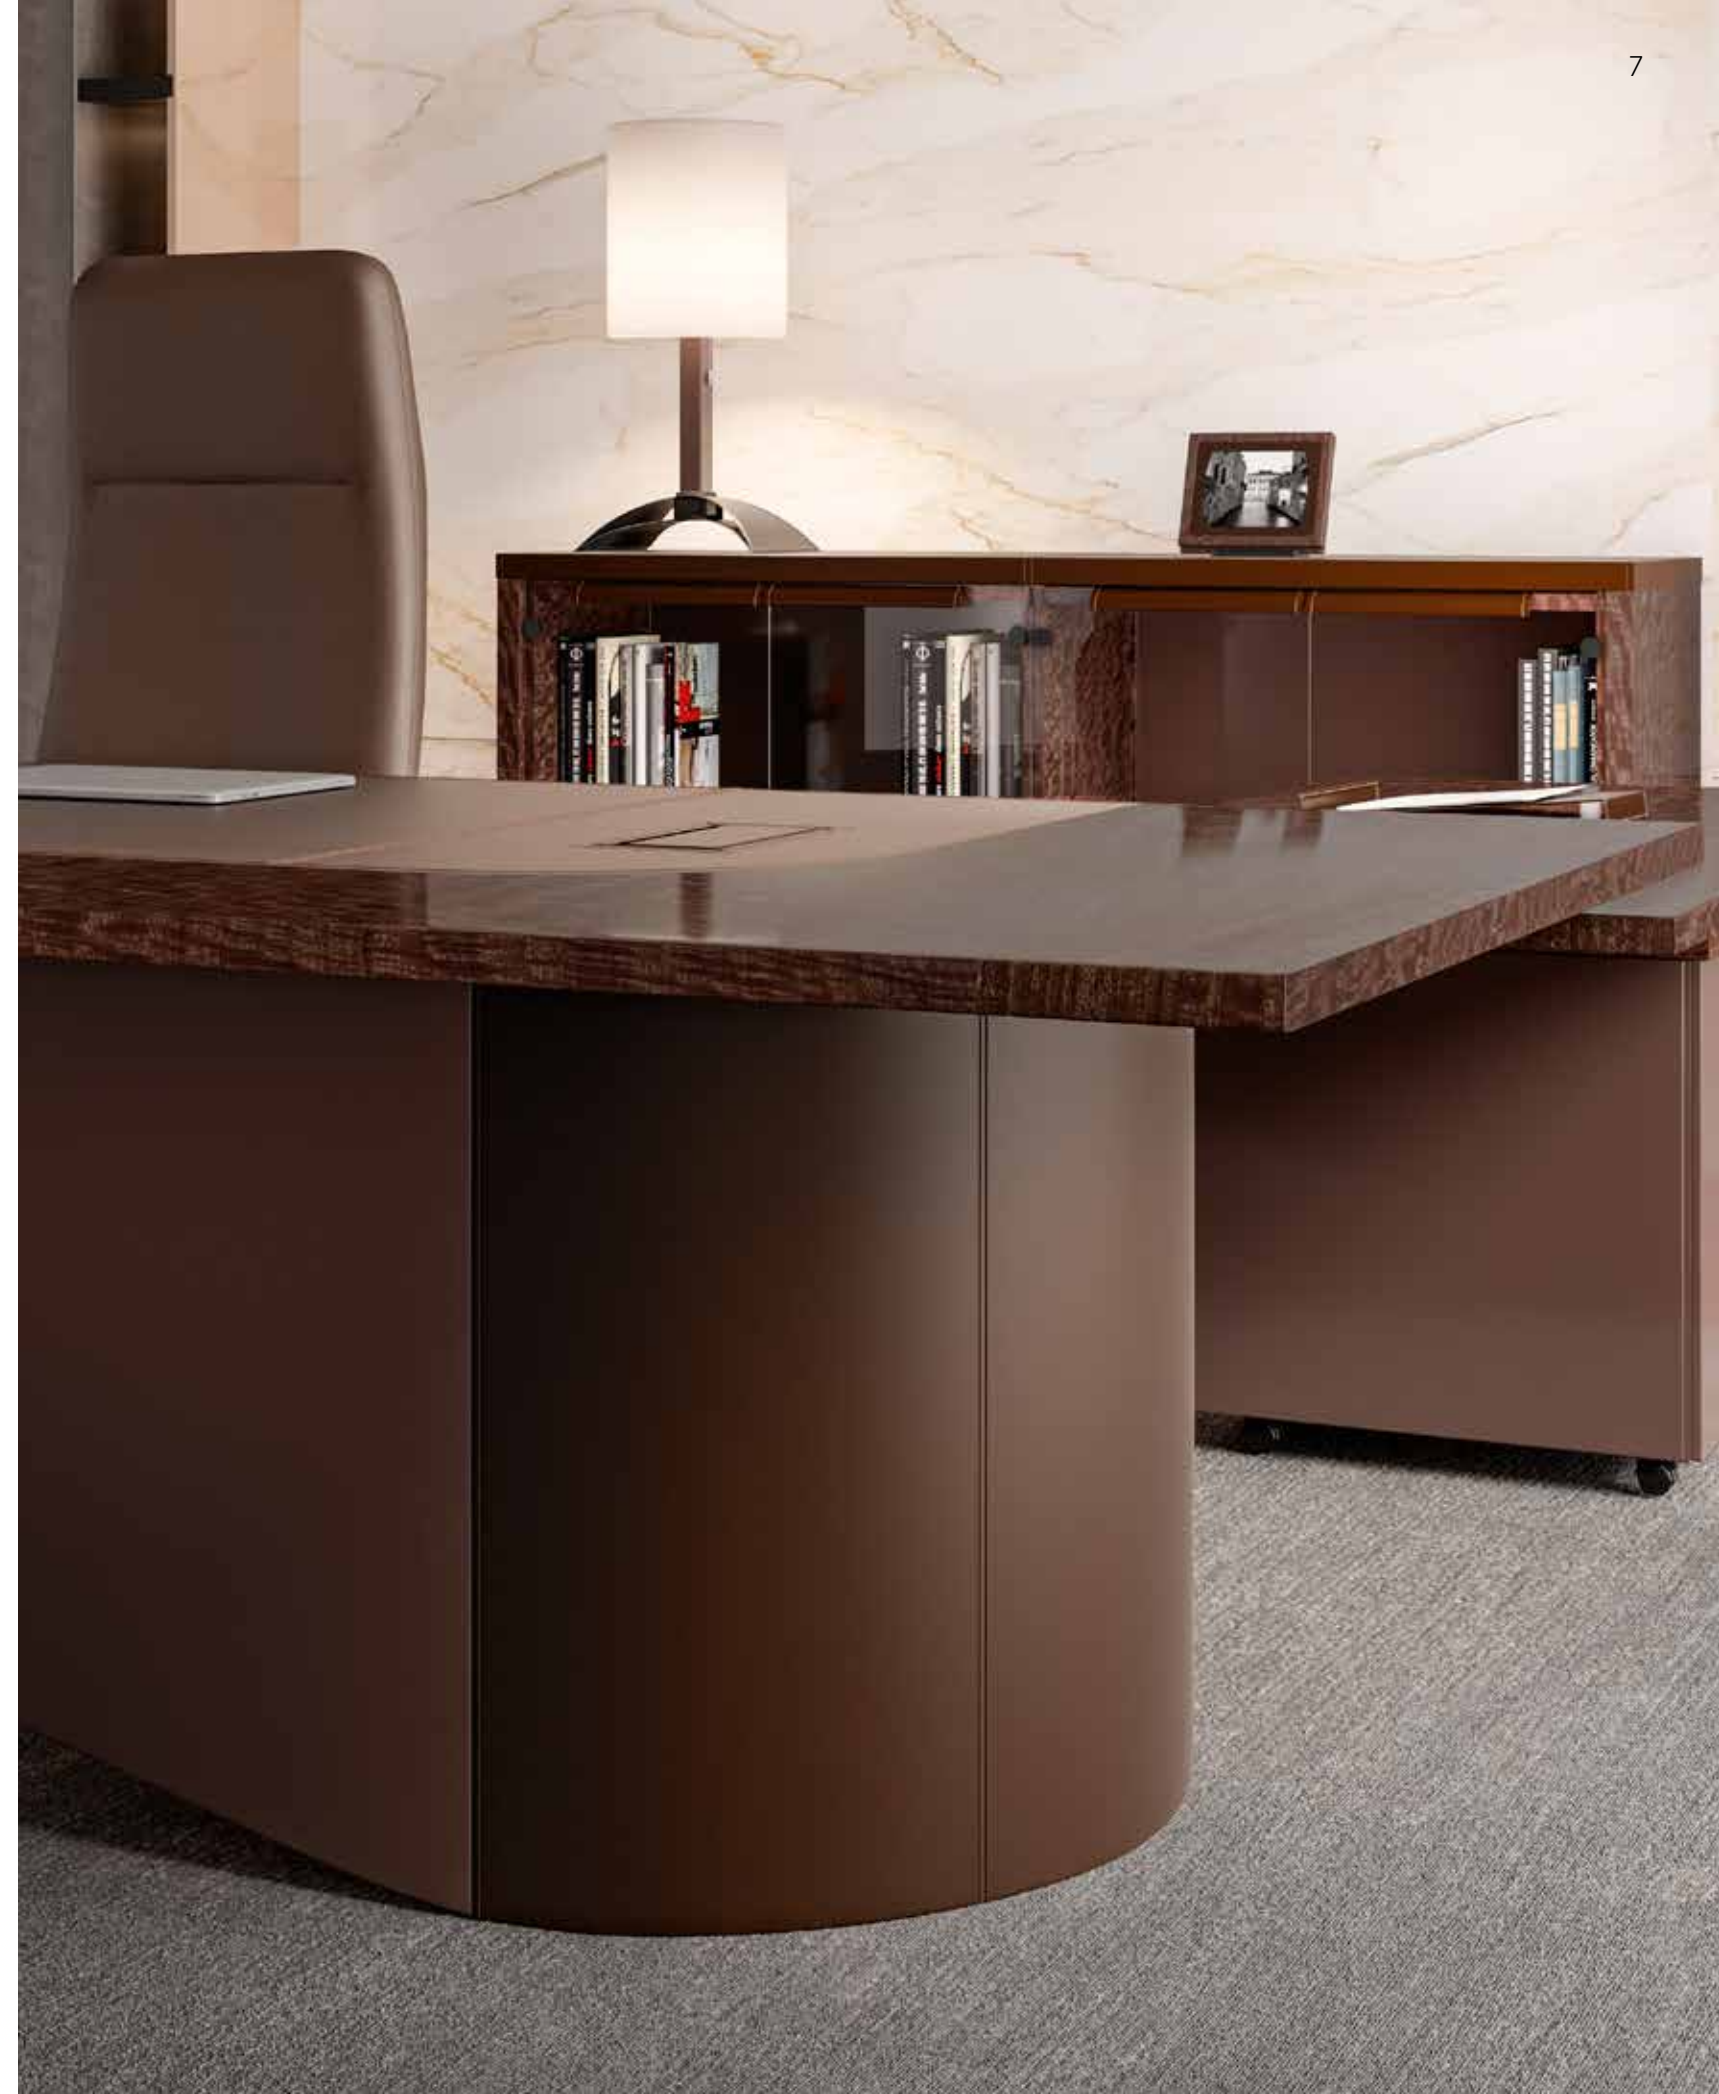

Come un abito di haute couture, la collezione Mithos è concepita per vestire ogni ambiente in modo eclettico e personale, grazie alla possibilità di personalizzare scrivanie e tavoli riunione con cassetti portacancelleria scorrevoli integrati nel piano, caricabatterie a induzione e multiprese.

With intense curves and sophisticated combinations, Mithos collection designed by Paolo Galeotti, stands out for its sculptural beauty and elegance.

A modern interpretation of classic forms, with details and materials designed to convey timeless elegance.

The leatherwork – entrusted exclusively to the hands of skilled craftsmen – and fine materials display an incomparable attention to detail with its roots in the great Italian manufacturing tradition.

Leather and wood coexist in harmony, embellished by saddle stitching and lacquered details. The shiny essences are made brilliant thanks to their intense nuance. Like an haute couture dress, the Mithos collection is designed to adorn any environment in an eclectic and personal way: through customised desks and meeting tables with sliding stationery drawers built into the top, to induction chargers and multi-sockets.

codutti

Il legno presente nelle collezioni direzionali Codutti è un materiale naturale. Per questo motivo differenze nelle caratteristiche cromatiche e di venatura presenti in ogni singolo elemento d'arredo, sono considerati segni distintivi di pregio. Il cuoio e la pelle sono materiali diversamente trattati, quindi diversa è la rifrazione della luce che determina il tono del colore. Le cuciture di pelle e cuoio possono presentare irregolarità nel tratto e variazioni di linea. Pertanto differenze di tono del colore e lievi imperfezioni nelle cuciture devono essere accettate quale segno dell'unicità e della cura artigianale del prodotto. Codutti Furniture S.r.l. si riserva di apportare qualsiasi modifica alle Collezioni presenti in questo catalogo ogni volta che lo ritenga opportuno.

codutti

Codutti's executive collections wood is a natural essence. Any differences in terms of color and veining between individual pieces of furniture are therefore considered as characteristic and distinctive markings. Thick leather and thin leather undergo different curing processes. As a result, the surfaces refract light differently and this determines a variation in the shade of the color. Moreover, the stitching in both thick and thin leather may appear irregular. Any differences in the shade of color and slight imperfections in the stitching are the natural consequence of the craftsmanship involved in the manufacturing process, which makes each product unique. Codutti Furniture S.r.l. is entitled to bring any modifications on Collections included in this catalogue at any time, without previous notice.
